EDUCATION

B.Tech AIML

Symbiosis Institute of Technology, Pune | Expected 2029

Sanjay Ghodawat Junior College, Atigre, Kolhapur—Maharashtra Board | 80%

Chhatrapati Shahu Vidyalaya, kolhapur—CBSE | 91%

SKILLS

Languages: Python, C, SQL, HTML

ML/AI: Regression Model, Data Analysis, Pandas, NumPy, Scikit-learn

AI Agents: Prompt Engineering, Hermes Agent, Function Calling, Multi-Agent Systems, Orchestration

Dev Tools: Git, VS Code, FastAPI(Basic), REST APIs

Platforms: Google Workspace (Gmail, Calendar, Drive, Sheets, Docs), Obsidian, Kaggle

PROJECTS

AI Agent with Persistent Memory | Python, Obsidian, Google APIs

Built an autonomous AI agent on Hermes framework with persistent cross-session memory, Obsidian vault integration for note management, and Google Workspace automation (Gmail, Calendar, Docs, Sheets) for daily productivity

FactFlow | [Next.js](#), React, typescript, Supabase

FactFlow includes an AI-powered article summarization feature using Google Gemini.

When a news article is fetched, the system can generate a short summary by clicking "summarise" button to help users quickly understand the key information.

ACHIEVEMENTS & CERTIFICATIONS

- AI for All—Intel Technology Private Limited— 2025
- Introduction to Generative AI—Google Cloud— 2025
